

Vial Capping Machine CMC

Product applications

- Cell and gene therapy
- Biotech
- ATMPs (Advanced Therapy Medical Products)

Container types:

Vials

Format range:

- Vials: 2ml up to 20ml nested vials

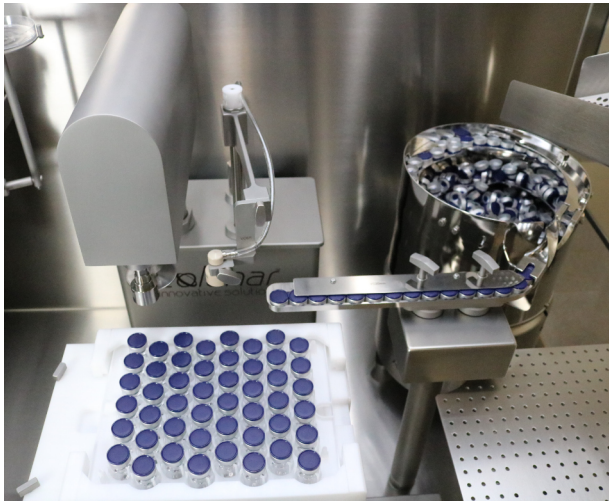

Technical Data:

- Output: Up to 20/min

Photo: SCHOTT AG

- Motor-driven capping disc movement
- Low-particel capping process
- Quick and easy conversion to different cap sizes
- Integrated sorting bowl
- Adjustable capping pressure
- Intuitive operation through touchscreen

Available Options

- Available as table-top unit, in safety cabinets, in oRABS or in isolator
- Suitable for a variety of aluminum and flip-off cap types

Benefits and Features

- Suitable for oRABS or isolator
- Stopper presence check
- Cap presence check
- Crimping pressure control
- Outfeed mousehole Grade A air supply
- RTP Alpha Port for cap feeding
- Fully integrated viable and non-viable monitoring
